Article Views: 5 0 NITRO SPECIAL PHOTOS PETE HALL Whether you've been involved in RC for years or you're new to the hobby, buying your first nitro-powered vehicle brings new challenges. Unlike electric, nitro isn't plug-and-play, and nitro engines don't always run in the same way from one day to the other. They have to [...]

### **GUARANTEED SUCCESS: ENGINE TUNING GUIDE - Boost Membership**

An engine will run lean if there is too much air or not enough fuel in the fuel/air mixture. The carburetor controls the fuel/air mixture. Adjust according to the instruction manual that comes with your engine. If adjusting the carburetor does not solve the problem, chances are the engine has developed an air leak.

### **Engine Tuning Guide - NITRO RC CAR GUIDE**

The simplest way to tune your carburetor air/fuel mixture is to look at your spark plug. If the plug is black with soot, the mixture is too rich. If the plug is white (burned), the mixture is too lean. You can also determine the air/fuel ratio based on the performance of your dirt bike.
