Hey Guys, So i was faced with the decision to fix the head on my jeep or swap the engine. Ultimately we came to the conclusion that we'd swap it. i got a 4.0L from a cherokee with 90K that runs fine for \$450. The new head would have cost \$760 plus labor. So next weekend we are going to swap hopefully in 2-3 days. Wish me luck!

Note About Jeep Rims (contributed by compleckz): Stock 15x7 steel wheels from my girlfriends 1996 Cherokee 4x4 fit fine on the rear, but the offset caused the rim to hit the caliper in the front of my 1997 Ranger 4x4. The rim could not spin, but it fit over the hub perfectly fine.
