How to Calculate the Rule of 40. The rule of 40 formula requires just two inputs, growth and profit margin. To calculate this metric, you simply add your growth in percentage terms plus your profit margin. For example, if your revenue growth is 15% and your profit margin is 20%, your rule of 40 number is 35% (15 + 20) which is below the 40% target. To be “attractive,” you must increase either growth or profit to reach a total of 40% or greater.
