The Horse, the Wheel, and Language: How Bronze-Age Riders ...

The Horse, the Wheel, and Language investigates the possible origins of the Proto-Indo-European language, the reconstructed language posited by philologists and historical linguists to be the mother tongue from which a host of modern languages were derived, including English, French, German, Italian, Punjabi, Spanish, Russian and Persian to mention only a few.

The Horse, the Wheel, and Language: How Bronze-Age Riders ...

The Horse, the Wheel, and Language begins with a brief introduction to Indo-European studies and controversies. A hundred pages then cover the linguistics: the reconstruction of Indo-European, dating its last speakers by linguistic comparisons of daughter languages, dating its earliest existence by common vocabulary — for wool, but above all for wheels and wagons — and locating it geographically by looking at vocabulary and at loans to and from Uralic and Kartvelian.
